Steven Tinkler

Plant Engineer Burden Preparation

Dear *Lee,*

I would like to take this opportunity, to express to you and your workforce, my heartfelt thanks and appreciation for your active participation in our recent shutdown at the Sinter Plant. Could you also thank your family and friends, who have contributed significantly by allowing you and your lads to work unsociable hours and given up your company for what must seem like an eternity.

Barring 2 small incidents the vast majority of all shutdown tasks were completed without injury. This is a testament to the value that we all are continuing to place on safety.

An enormous amount of work was undertaken, both fixed price and day rate. This work will underpin our performance and availability over the coming year. This work could not have been a success without your help.

Once again, I would like to thank you and your lads, for your efforts and contribution of time. It is very much appreciated.

Working with you all on the shutdown was a pleasure.

Regards
